

ATHON

AN URSUS CLASSIC.

Athon are the perfect synthesis of the must have features that you'll need from a road racing cycling wheel. Yet selected for training by professional teams which have chosen Ursus, it has stood for reliability in classic races such as the "Strade Bianche". An aluminum low profile (24 mm) rim, associated with a pair of smooth Ursus CNC machined hubs, makes Athon extremely comfortable, supersoft on roughness, slight uphill and responsive at the same time.

WEIGHT

FRONT WHEEL

700 g

REAR WHEEL

855 g

TECHNICAL DETAILS

WHEELS	HUB	SPOKES
Material: Clincher rim in alloy 6005 T6 anodized black.	Front: Ursus RSJ24F	Head Type: straight pull head and bend head rear cassette body side
Height profile: 24 mm, Wide profile: 20 mm	Rear: Ursus RSJ24R	Nipples: external brass nipples thread lock system
Rim holes: front 20 holes, rear 24 holes	Material: Black hubs in alloy. Seal ball bearing high fluidity SKF.	Number of Spokes: 20 front and 24 rear
Braking surface: alloy	Compatibility: Shimano / Campagnolo / SRAM	Spokes: inox flat; front: radial; rear: 8-16 radial/ 3° crossing right side
Diameter valve hole: 6 mm	Braking system: Pads for alloy	
Advised Tires: Tire 28" diam. 700x23 and 700x25.	Quick Release: Ursus WB05 alloy quick release with CrMoLi Axle	
Rim designation: 622 x 14C
