DIRETO

DIRETO

INTERACTIVE & EASY TRAINING

Practical and efficient, ideal for targeted and effective training sessions, DIRETO sums up all the best features that a home trainer needs to have, for those who want to train indoors on their own bike and only want the best.

DIRETO is placed at the high end of the Elite home trainers range, alongside with the Drivo, currently the n°1 Elite home trainer. Both home trainers strive for absolute perfection, and Direto is a perfect product that translates into perfect training sessions.

One of the best things about this totally interactive home trainer is its integrated OTS (Optical Torque Sensor) power meter, which measures power with +/- 2% accuracy. DIRETO's pedaling analysis option (available as an in-app purchase) measures power during the whole pedaling movement and sets 12 points that determine how much effort you put in your legs, so you can optimize your training session. The My E-Training software and app with pedaling analysis option (available as an in-app purchase) displays DIRETO's measured power data on two different types of charts.

DIRETO also simulates challenging slopes, up to 14%, with a 1400 Watt power output at a 40 km/h speed.

DIRETO combines all the advantages of a professional instrument in an easy and intuitive package that can be used by anyone. The consistent training metrics it produces are key to satisfy the needs of those that want high quality data to guide their training sessions.

These are many of the qualities that set DIRETO at the top of Elite home trainers range. It's a precise and very stable home trainer. Easy to use, transport and put back after use, DIRETO can be used at home or in the office. Now you can escape the daily routine by planning indoor training sessions.

DIRETO is part of the new generation of totally interactive ANT+ FE-C & Bluetooth compliant home trainers that interact with a multitude of apps, software, computers and devices (smartphones and tablets) with iOS, Android, MacOS and Windows. Anywhere, anytime, with just a few clicks, just set the course or training program and start pedaling; DIRETO will handle the rest by automatically adjusting the resistance and managing your training session. Your pedaling passion combined with DIRETO accuracy is the perfect pairing you need to obtain perfect training sessions.

No more boring training sessions! DIRETO, just like all other Elite interactive home trainers, offers many training possibilities. The home trainer can be managed with the following available software: it's compatible with My E-Training (compatible with Android, iOS, Windows and Mac) and available with a 12-month free subscription. That's not all. DIRETO is compatible with the following available softwares, amongst many others:

Zwift, TrainerRoad, The Sufferfest, Kinomap, Bikevo

The Online training revolution has already started!

The mechanism is simple and intuitive, these software display the rider's avatar on screen so for instance you can train with a friend that's far away or permit to take part in a proper training session with other users: gaming, training and social are combined in a single product. It's a popular format that has created an ever-growing community. Training has never been so effective and fun at the same time!

WHY A DIRETO?

- It's a new totally interactive ANT+ FE-C & Bluetooth home trainer, compatible with all software supplied by Elite and with the other most used platforms, so the cyclist can go online to challenge other users.
- Direct drive for easy set-up and zero tyre wear or slippage.
- It's ideal for any type of training, specifically for those training sessions directed towards working on: cadence, power and sprints that require absolute accuracy.
- It simulates slopes up to 14% and develops 1400 Watt power output at a 40 km/h
- It's practical and easy to use: very stable, easy to transport, folds quickly for storage even with limited space available.
- It's compatible with both road and MTB frames, including 142 x 12 with thru axles

DIRETO

FEATURES AND SPECS

Features

Home trainer type	Interactive direct transmission with electronically managed magnetic brake
Power monitor	Integrated OTS (Optical Torque Sensor) power meter
Power measurement accuracy	+/- 2%
Wireless transmission	ANT+ (FE-C Power and Speed & Cadence) and Bluetooth (FTMS, Power and Speed & Cadence)
Max slope	14%
Max power	(40 km/h) 1400 Watt - (60 km/h) 2200 Watt
Management via	Smartphone, tablet, ANT+ FE-C and Bluetooth bike computers
Compatible with	My E-Training software & app, Zwift, Trainerroad, Bikevo, Kinomap, The Sufferfest and others
Output	Power, speed and cadence
Flywheel	4,2 kg, high RPM
Bike compatibility	Road, Mountain and city bikes (including carbon ones), with 130-135 x 5mm hubs and quick release and 142x12 with thru-axle
Sprocket cassette compatibility	Shimano 9/10/11 speed, SRAM & Campagnolo 9/10/11 speed. An adapter that's available from your local Elite dealer or www.shopelite-it.com is required for compatibility with Campagnolo
Connection	Power supply, ANT+ and Bluetooth (3 LED lights)
Firmware update	Yes
Includes	12-month free subscription to the My E-Training software & app
Available on	Smartphone, tablet, bike computers, sport watches, Windows and Mac, ANT+ and/or Bluetooth computers

Specs:

Electrical requirements	input 100-240 volt 50-60hz 6A - output 12V 1.5A
Space occ. when unfolded (lxd)	840 x 650 mm (33.07 x 25.59 in)
Height	550 mm (21.65 in)
Space occupied when folded (lxdxh)	300 x 650 x 550 mm (11.81 x 25.59 x 21.65 in)
Weight	15 kg (33.1 lbs)
